The Beauty of Natural Wood.

4 collections of beautiful, eco-friendly wood flooring by Ribadao Wood Boutique.

A family business founded in 1976, Ribadao is dedicated to providing the market with unique and elegant wood floors.

Based in Portugal in the beautiful area of Viseu, the company has operations in the USA, Europe and Africa. Exclusively dedicated to the latest market trends and demands, the company works diligently to produce and sell ecological and sustainable products.

With a focus on art and design, Ribadao strives to produce high quality products at affordable prices, with a continuous commitment to service and professionalism.

See the Ribadao Difference! Contact your local appointed Ribadao re-seller who will help guide you through all the possibilities available for your project.

RIO COLLECTION

The eighteen colors of the Rio Collection has several shades from light to dark.

The Rio Collection features the character, marking and variation that has made European oak so popular. Knots, splits, cracks, and filler develop into a distressed, antiqued, worn and naturally aged appearance. Variations in shade and contrast between planks are integral to the product and are not signs of manufacturing defects.
